ECB-S certification – BRF S2 (0906/SSC10-01A)

Dear Ms. Melnikova,

On 12 August 2014 the European Certification Body GmbH recertified the series BRF S2 for four additional years (ECB-S certificate 0906/SSC10-01A). For recertification we also assessed that an alternative bolt fastening is possible according to the attached drawing P13-016-1 dated 27 December 2013 and stamped by us on 14 August 2014. However we did not include the drawing into the annex of the certificate.

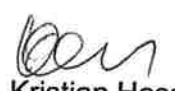

With this letter the European Certification Body therefore confirms that the **BRF S2** series (0906/SSC10-01A) with the alternative bolt fastening meets the requirements of the EN 14450:2005 as well as ECB-S C10. An additional certificate will not be issued.

We will include the change into the next revision of the ECB-S certificate of the BRF S2 series.

Best regards,

Dr. Markus Heering

Falko Adomat

Kristian Hess
